Dunlopillo mattresses

Founded in 1929, Dunlopillo is now the authority and leading manufacturer of latex foam. All Dunlopillo mattresses use 100% pure latex, which is derived from the sap of rubber trees. Their unique blend of latex shapes to your body contours ensuring you have a fantastic night's sleep.

The Signature Collection of mattresses offers you a perfect sanctuary, a place to relax, rest and unwind at the end of the day. A world where the quality of your sleep directly influences the quality of your life.

Dunlopillo latex

7 Comfort zones

Soft touch cover with Actipro™ technology

Guarantee

Mattresses guaranteed for eight years.

Breathable

Air circulation keeps the bed at a comfortable temperature.

Health and Wellbeing

Anti-allergenic, anti-bacterial and anti-microbial properties.

Pressure Relieving

Instant pressure relief for a refreshing and revitalising night's sleep.

Progressive Comfort

Encourages deeper and more restful sleep.

7 Comfort Zones

Perfect balance of comfort and correct spinal alignment.

The natural way to sleep

We use only pure latex... pure and simple

Dunlopillo latex is a wonderful material derived from the sap of rubber trees, grown and managed in sustainable plantations.

Every drop counts

Perfect comfort takes time...in fact it takes one tree over 500 days to create enough latex for a single mattress.

Environmentally friendly

Latex is one of the most eco-friendly mattress fillings. Rubber trees purify over 90 million tonnes of carbon dioxide a year.

Health and wellbeing

Latex naturally has anti-allergenic, anti-bacterial and anti-microbial properties, characteristics which are embodied in our innovative Dunlopillo mattresses.

Quiet, durable and ventilated

Dunlopillo latex is resilient and responsive, helping to provide a revitalising, undisturbed natural sleep, for the whole of the mattress life.
