Lifetime Frame Guarantee
We recognise that your folding bed is a considerable investment so we offer a lifetime frame guarantee on all Jay-BE folding beds for your further assurance.

Award Winning Manufacturer
Jay-BE is proud to be a multi award winning business for both product design and manufacturing.

Over 100 Years of Innovation
Founded in Yorkshire, England, Jay-BE's manufacturing roots can be traced back to the early days of the industrial revolution. Born out of a passion for comfort and design, we have evolved through generations to become best known for producing high quality folding beds, sofa beds and mattresses for exceptional value.

One World. Together.
Standing proud as one of our most important philosophies, One World, Together, symbolises the idea that the combined effort of all can change the World we live in for the better. Together and only together can we make a real difference.

One World. Together.

Folding beds

One World. Together.

JAY-BE
Sleep Smart

J-Text[®] sprung base

All of our folding guest beds in this range come with a J-Text[®] sprung base system, which offers a higher level of comfort and durability. This technology has been independently tested and has been proven to perform as well as regular permanent beds.

Breathable mattress

Our foam free folding bed range enables increased airflow throughout the mattress for a fresher and healthier nights sleep.

Continual use

All of our folding beds are easy to use and are ready to be used on a regular basis.

Strong frame construction

The folding beds are all made with a steel frame for added strength and finished with a durable powder coat paint.

One World. Together.[™]

The combined effort of all can change the World we live in for the better.

Sustainability

As a forward thinking and conscientious manufacturer, we always consider the environmental impact when designing our products. Our foam free folding bed collection has the following environmental credentials:

100% Recyclable headboards

The wood used in our folding bed headboards is FSC certified and sustainably sourced.

100% Recyclable steel frame

The steel frame used on our folding beds are made partly from recycled sources and are 100% recyclable.

100% Recyclable comfort layers

The Smart Fibre comfort layers used are derived from recycled plastic bottles and sustainable fibres which are 100% recyclable.

100% FoamFree

As well as being sustainable, **Smart Fibre is 100% foam free**, so you can be assured that our mattresses are completely free of harmful chemicals and VOCs.

We have actively diverted the equivalent of more than **60m** plastic bottles from going into landfill or our oceans since introducing Smart Fibre.

Foam Free

Benefits of foam free:

- 100% recyclable.
- No harmful chemicals or VOCs (Volatile organic compounds) ensuring a healthier nights sleep.
- Breathable and fresh, helping to let airflow throughout the mattress.
- Open cell structure allows improved moisture and heat dissipation, helping to lead to a more hygienic and comfier sleep.
- Improved temperature regulation, helping to keep you cool during the night.
- Odourless and colourless.
