

FITTING INSTRUCTIONS

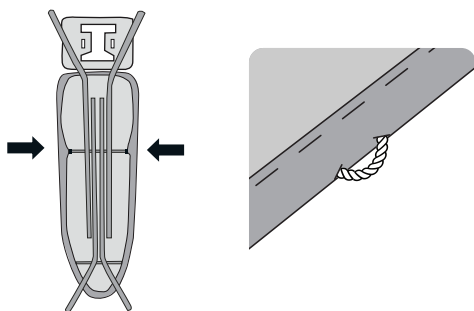

1. Lay the cover evenly on the ironing board.

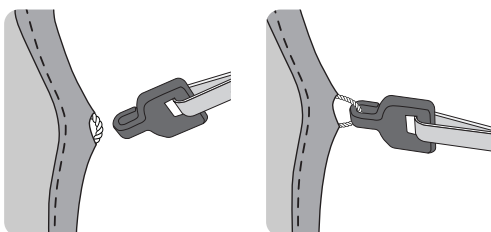

2. Pull the strings fully downwards until the cover grips the entire rim of the board.

3. When the cover is pulled tight, cut the string leaving 25cm spare. Wrap the string around the plastic cord wrap to fasten in place.

4. On the underside of the board, look at the edge of the cover for a small opening in the fabric that reveals the drawstring threaded through it.

5. Hook the elastic strap securely in place on both sides of the cover making sure the strap is not restricting the legs from opening & closing.
