BALDWIN GLASS FLOOR LAMP

USER GUIDE

Product Code:
12060102

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class II product and must NOT be earthed. Please read these instructions carefully before commencing any work. Your lamp has been packaged as separate parts to prevent damage during transit. When manoeuvring or assembling this product, it must be lifted from the bottom section.

The lamp must be protected by a 3 amp fuse in the mains plug. If you are in any doubt, please consult a qualified electrician. For your safety, always switch off the supply before cleaning or changing the bulb. If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person. Always use correct type and wattage bulb. Never exceed the wattage stated.

Parts list	Description	Image	Quantity
	Light fitting (3 sections + base) and shade ring		x 1
	Shade		x 1
	Metal collar		x 1
	Spanner		x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly and remove the protective plastic end-caps from the tubes (A).

Step 2

Screw tube (C) onto the top section (B) in a clockwise direction. Take care not to trap the cable or cross the thread. Then screw tube (D) onto tube (C) in the same way.

Step 3

Slot the stem into the base and gently pull through any excess cable. Rotate the stem carefully but firmly to make sure the shade faces forward (fig. 1). Use the supplied spanner (E) to tighten the nut at the bottom of the base.

Step 4

Stand the product upright and check the tightness of the joints by hand.

Step 5

To attach the shade first remove the shade ring from the threaded lampholder. Fit the metal collar (F), followed by the shade (G) and secure in place with the shade ring (H). Do not overtighten.

Step 6

Fit the recommended bulb (I) as per the details overleaf.

Step 7

Plug the lamp in and switch on using the foot switch. The shade position can be adjusted by loosening the thumb screw in the join of the shade and arm (J).

PLEASE NOTE:

The lamp head will become hot during use. Always switch off and allow to cool before adjusting the lamp head. Ensure the stem is held while adjusting the lamp head.
