Thank you for purchasing this Bear Metal Shelf . Please read the instructions and warnings carefully before use to ensure safe and satisfactory operation of this product. Before beginning assembly, please ensure you have all parts outlined in the pack Contents below.

Warning - A guide to wall mounting and fixings

and coat racks.

Please ensure you use the correct screws / fixings for your type of walls and seek professional advice if you are not sure.

Failure of the product due to incorrect fixings is the responsibility of the installer.

Important: When drilling into the walls always check that there are no hidden wires or pipes etc.

I. General Purpose wall plug Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general - purpose wall plugs can be used.

2. Plasterboard wall plug For use when attaching light loads on to plasterboard partitions.

.

For use with plasterboard partitions or hollow wooden doors. 4. Cavity Fixing - Heavy Duty wall plug For use when fitting or supporting heavy loads such as shelving, wall cabinets .

3. Hammer Fixing wall plug For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall. 6. Shield Anchor wall plug – Heavy loads For use with heavier loads such as TV and Hi-Fi speakers and satellite dishes

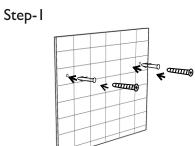

Care and maintenance Safety: Periodically check all fittings and wall fixings to ensure they have not come loose and retighten as necessary
