## Care and maintenance

Do not use a wire brush when removing dirt from this item as it may damage the paint leaving the surface open to corrosion.

To extend the product life and appearance it is advisable to store the furniture in a cool dry place over winter. Ensure that the furniture is clean and completely dry before putting it into storage.

Do NOT enclose the product in a plastic or other non-permeable material as this creates moisture.

If your furniture comes with cushions, when not in use, it is recommended that they are stored in a clean and dry environment. Wipe up any spills immediately and always refer to the care label which either be sewn to the back of the cushion or sewn inside if your cushion has a zip closure.

We recommend the use of waterproof furniture covers to protect your furniture when it is left exposed to rain or snow. After a rain or snowfall, wipe off excess water or snow, especially from flat surfaces. Allow air to ventilate, to avoid moisture and mould.

To help maintain its appearance and avoid scratches, never place sharp pointed objects directly onto the surface. Do not cut directly on the surface. Always use a cutting surface to avoid damaging the surface.
