NOTARY TASK LED TABLE LAMP

USER GUIDE

Product Code:
70660105

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE Wiring Regulations.

This product is Class II when used with a plug-in transformer. It must NOT be earthed. Under no circumstances must this be replaced by a standard 13amp UK type plug. This will cause a safety hazard.

Do not use with any other driver than that supplied, or one matching its specifications. If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person. In the case of this product, the cable is connected to the driver via a jack plug and a new cable set may be available - please check with your retailer.

Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface.

Do not cover or place any objects over the sensor.

If you are in any doubt about your competence please consult a qualified electrician. If any modification is made it will invalidate the warranty and may render the product unsafe.

When moving or cleaning, always switch off at the mains and allow the LEDs to cool before handling.

Parts list

Description	Image	Quantity
Light fitting		x 1
Hex key		x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly.

Step 2

Connect the driver to the product (A). Plug in the LED driver. Your lamp is now ready for use.

Step 3

This product has a motion sensor (B). Just swipe over the motion sensor, within a 10cm range of the base, to turn on and swipe again to turn off.

Dimmer and memory function:

This product also incorporates a dimmer. Hold hand over the sensor to increase or decrease the brightness. The last brightness level will be selected when switched back on.

Note:

The lamp can be adjusted to the appropriate angle as needed. If the screws in the joins become loose, just tighten with the supplied hex key.
