

Care instructions

After a few days check that the fixings are still tight. Periodically check all fixings to ensure none have come loose and re-tighten where necessary.

Never over rotate the seat open when it is removed from the WC as this can cause damage to the hinges.

Do not force down the seat ring or lid as this may compromise the performance of the soft close hinges.

Cleaning instruction

Clean surfaces with a soft damp cloth and mild soap solution. Do not scrub or scour. Do not use abrasive cleaning agents.

When using corrosive or chlorine-based cleaners for the toilet bowl, ensure that these do not come into contact with the seat. Keep the seat and cover in an upright position until all cleaner has been flushed away. Failure to do so can lead to discolouration of surfaces or rusting of metal parts which will not be covered by the guarantee.

Guarantee

This seat is guaranteed for 5 years; this is in addition to your statutory rights.

When claiming:

- Proof of purchase is required.
- We will either replace the faulty part or the complete unit as appropriate.
- We reserve the right to use alternative, similar materials, where the original is no longer available.
- We will replace it with the same model or, if this is no longer available, substitute an equivalent specification or value.

This guarantee does not cover:

- If there is evidence of product abuse, misuse or use in a non-domestic environment.
- If the product has not been properly maintained in accordance with care and cleaning instructions.
- If the product has been exported outside of Great Britain and Northern Ireland.

Bottom Fix Toilet Seat

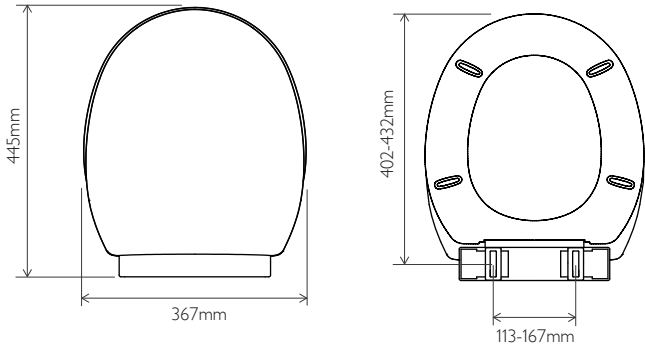

80970103

Getting started

Thank you for purchasing this product. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product. It is recommended that this product should only be installed by persons competent in DIY.

If you are not the end user, please pass these instructions on to the owner of the product. Before removing the seat from the protective film, please check that it is suitable using the measurements on the diagram to below.

general seat dimensions

max/min fixing adjustment

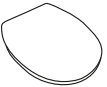

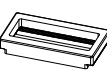

To install this toilet seat you will only need fixing pack (provided), no tools are necessary to install the seat

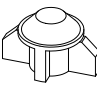

Warnings

- Keep fittings away from children - small parts are a choking hazard
- Do not stand on the lid or ring of your toilet seat.

Parts list

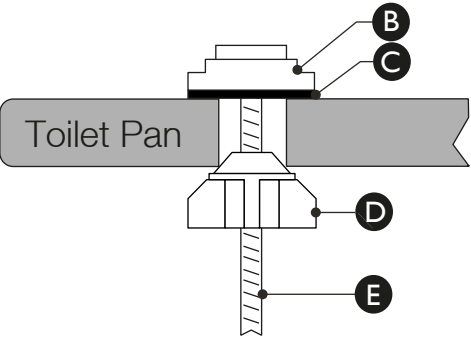

Please check the pack contents before installing this product. A full checklist of components is given in this leaflet. If any components are missing, please contact us on 03456 050 144.

Ref.	Parts	Name	Qty.
A		Toilet seat	1
B		Nylon insert	2
C		Rubber Washer	2

Ref.	Parts	Name	Qty.
D		Fixing bolt	2
E		Underfix nut	2

Assembly

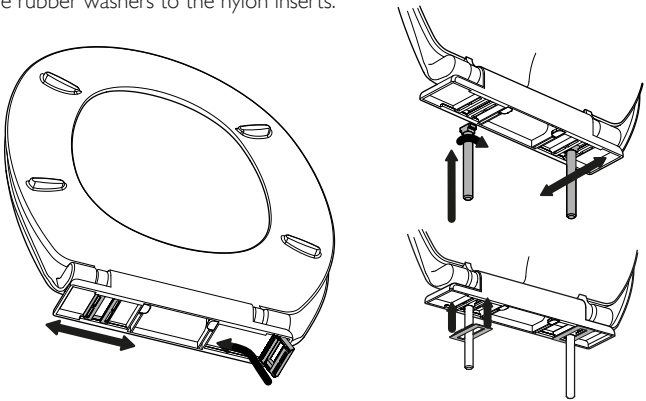

The fixings provided are for underfix installation only, you will need access to the underside of the WC to make installation of this seat possible.

Follow the instructions below to ensure to install the components shown above in the correct order.

Seat fitting

Insert the nylon inserts into the hinge. The nylon inserts can slide along the slot to give sideways adjustment to help find the correct fit for your WC. Then, insert the fixing screws into the nylon inserts and rotate 90° to secure in place. Next, attach the rubber washers to the nylon inserts.

Insert the seat fixing screws into the fixing holes on the WC and fold the seat down to adjust the fit before secure the seat in position using the underfix nut.
