LED DECO ROD BATHROOM WALL LIGHT USER GUIDE

Product Code: 70259518 70259519 70259520

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class II product and must NOT be earthed.

It is recommended that this fitting is installed by a qualified electrician.

Install in accordance with the IEE Wiring regulations and the Building Regulations.

To prevent electric shock switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge. If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a 5 amp fused circuit. If replacing an existing fitting, make a note of the connections.

This product is rated IP44. This product is suitable for indoor use only.

This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).

When moving or cleaning, always switch off at the mains and allow the module to cool before handling.

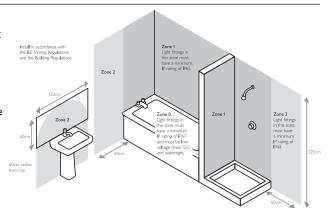

Parts list

| Description | Image | Quantity |
|---------------|---------|----------|
| Light fitting | | ×1 |
| Wall plugs | and and | × 2 |
| Screws | | × 2 |

Assembly

This product has special protection against the ingress of moisture and is IP44 rated.

This product is suitable for use in Zone 2 and outside Zones of a bathroom. See diagram. If installing in a bathroom a 30mA RCD must be used - in accordance with IEE Wiring Regulations and the Building Regulations.

Product assembly

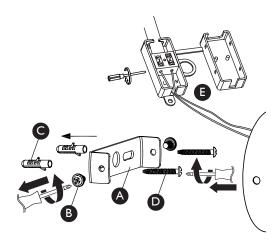

Step 1

Refer to assembly diagrams right. Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires.

Step 2

Remove the fixing bracket (A) from the product by unscrewing the two side screws (B) and retain for reuse. Ensure there is a solid mounting surface to support the weight of the light fitting. Using the fixing bracket as a template, mark the position of the mounting holes. Drill holes and fit supplied wall plugs (C) (suitable for masonry only). Take care to avoid damaging any concealed wiring and pipes.

Fix the bracket to the wall using supplied screws (D).

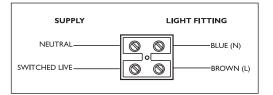

Step 3

Having identified the household wiring from your existing light fitting, connect to the connection block (E) inside the product in the following way. Check that: You have correctly identified the house wires.

The connections are tight.

No loose strands have been left out of the connection block.

The lid is closed securely over the teminal block.

Step 4

Refit the product onto the fixing bracket and secure with the screws removed in Step 2. Take care not to trap any wiring. Make sure the product is correctly orientated with the drain hole (F) at the bottom.

Step 5

Turn on the power and test.
