# LEIGHTON FLOOR LAMP

## USER GUIDE

5

YEARS

Product Code:  
 12000401

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class II product and must NOT be earthed.

Please read these instructions carefully before commencing any work.

Your lamp has been packaged as separate parts to prevent damage during transit. When manoeuvring or assembling this product, it must be lifted from the bottom section.

The lamp must be protected by a 3 amp fuse in the mains plug.

If you are in any doubt, please consult a qualified electrician.

For your safety, always switch off the supply before cleaning or changing the bulb.

If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.

Always use correct type and wattage bulb. Never exceed the wattage stated.

Parts list

Description	Image	Quantity
Light fitting (3 sections + base)		x 1
Shade fixing tool		x 1
Bulb fitting tool		x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly.

Step 2

Screw tube (B) onto the lampholder section (A) in a clockwise direction. Take care not to trap the cable or cross the threads. Then screw tube (C) on to tube (B) in the same way.

Step 3

Gently pull any excess cable through from under the base (D) and then out through the side of the base. Turn the completed assembly anticlockwise approximately 6 times. (Turning the tubes anticlockwise first ensures that the cable will straighten when the tubes are fully assembled).

Step 4

Screw the stem into the base and stand the product upright. Check the tightness of the joints.

Step 5

The shades may become loose during transit. To tighten the shades, use the supplied fixing tool (E).

Step 6

Using the supplied bulb fitting tool (F) fit the recommended bulbs (G) as per the details overleaf.

Step 7

Unbundle the cable from the cable tie. Your floor lamp is now ready to use. Switch on using the buttons on the back of the lights (H).

Note:

The heads rotate from side to side and can be adjusted to the appropriate angle as needed.
