## JOHN LEWIS & PARTNERS

### Lulu 3 Light Ceiling Light User Guide

**Product Code:**  
70155052  
70155053  
70155003

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class 1 product and must be earthed.

It is recommended that this fitting is installed by a qualified electrician.

Install in accordance with the IEE Wiring regulations and the Building Regulations.

To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge.

If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a 5 amp fused circuit.

If replacing an existing fitting, make a note of the connections.

Always use the correct type and wattage bulb. Never exceed the wattage stated.

Dispose of used bulbs carefully.

This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).

This product contains delicate parts – be careful during handling and maintenance to avoid breakage.

For your safety, always switch off the supply and allow the fitting to cool down before changing lightbulbs, cleaning or adjusting.

Parts list

Description	Image	Quantity
Light fitting + x 3 shade rings (fitted)		x 1
Glass shades		x 3
Shade ring tool		x 1
Wall plugs		x 2
Screws		x 2

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires.

Step 2

The arms of the fitting have been deliberately moved out of position. Before installation, the arms must be correctly repositioned into equal thirds by hand (A). Each arm has a spring washer fitted to it, to enable the arm to be repositioned without the need for loosening or retightening the nut.

Step 3

Remove the fixing bracket (B) from the product by loosening the two side screws (C). Ensure there is a solid mounting surface to support the weight of the light fitting. Using the fixing bracket as a template, mark the position of the mounting holes. Drill holes and fit supplied wall plugs (D) (suitable for masonry only). Take care to avoid damaging any concealed wiring and pipes. Fix the bracket to the ceiling using supplied screws (E).

Step 4

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way. Check that: You have correctly identified the house wires. The connections are tight. No loose strands have been left out of the connection block.

Step 5

This product has "L" shaped fixing slots to allow easy fixing to the fixing bracket. Locate the "L" slots (F) around the small screws (C) on the fixing bracket (B). Rotate the ceiling cover to attach the product to the bracket. Tighten the screws to secure. Take care not to trap any wiring.

Step 6

To attach the glass shades remove shade rings (G) from threaded lampholders (H), place the glass shades over the lampholders and replace the shade rings. Tighten with light pressure. A tool is supplied for fixing the shade rings. Please keep this for future use.

Step 7

Fit the recommended bulb. Your light is now ready for use.
