Selling Text	<p>Paul Smith unveils an inaugural home fragrance collection following the introduction of Paul Smith Home earlier in the year. Inspired by some of Paul's most treasured memories and harnessing the designer's love of colour and bold design, the set includes a series of collectible, reusable candles and diffusers.</p> <p>Four scents are included in the collection, each based on a series of Paul's most evocative memories and offering an olfactory journey into the designer's world. Named for idiomatic character and personality traits, they nod to Paul's distinctly British sense of humour.</p>
Care Instructions	<p>To get the best from your candle, there's a few tips and tricks to keep in mind. Before burning, protect surfaces using the lid as a coaster and trim the wick to 5mm. Once lit, burn until the entire top layer of wax has melted evenly (but avoid burning for longer than 4 hours). Extinguish with a snuffer and wait until the wax has hardened before replacing the lid to shield it from dust. When it's time to reuse the vessel, avoid using the dishwasher. Instead, use warm water to loosen the wax, wash in soapy water and dispose of the wax residue carefully.</p>
