

## Product information

- Indoor use only
- Non-dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

Made in China

30/07/2024

Please retain these instructions for future reference.

## Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

## Warnings

This is a Class II product and must NOT be earthed. Please read these instructions carefully before commencing any work. The lamp must be protected by a 3 amp fuse in the mains plug. If you are in any doubt, please consult a qualified electrician. For your safety, always switch off the supply before cleaning or adjusting. If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person. Always allow the product to cool down for 10 minutes before changing the bulb or replacing the shade.

## Parts list

Description	Image	Quantity
Light fittings & shade rings (fitted)		x 2
Shades		x 2
Top caps		x 2
Top cap connectors		x 2
Plastic washers (fitted)		x 2

## Product assembly

### Step 1

Carefully unpack the carton, making sure all the parts are present before assembly.

### Step 2

To fit the shades (A), first remove the plastic washers (B) and shade rings (C) from the threaded lampholders.

Place the shades over the lampholders and refit the plastic washers and shade rings. Secure in place but do not overtighten to allow the shade to close.

### Step 3

Place the top cap connectors (D) through the inside of the top of the shades. Screw the top caps (E) in a clockwise direction onto the top of the shades and secure in place. Do not overtighten to avoid damage to the paper shades.

### Step 4

Fit the recommended bulbs (F) as per the details overleaf.

### Step 5

Bring the shade edges together (G) to close the shades. The small magnets will keep the shades in position.

To open the shades and change the bulbs, use your thumbs to gently pull on the shade edges to release the magnet tension (H).

### Step 6

Your table lamps are now ready to use.
