

Product information

- Indoor use only
- Non-dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

Aftercare and Troubleshooting

You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

12080106

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class 1 product and must be earthed.

Please read these instructions carefully before commencing any work.

Your lamp has been packaged as separate parts to prevent damage during transit.

When manoeuvring or assembling this product, it must be lifted from the bottom section.

The lamp must be protected by a 3 amp fuse in the mains plug.

If you are in any doubt, please consult a qualified electrician.

For your safety, always switch off the supply before fitting shades, cleaning or changing the bulb.

Ensure lampholder parts are securely fastened together.

If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.

Always use correct type and wattage bulb. Never exceed the wattage stated.

When using with a shade of a different wattage rating, always follow the lower rating.

Parts list

Description	Image	Quantity
Light fitting (2 sections)		x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly.

Step 2

To attach the stems together carefully push the cable down into tube (B) and pull the cable through from the side of the base. Turn tube (A) anticlockwise approximately 6 times (Turning the tubes anticlockwise first ensures that the cable will straighten when the tubes are fully assembled). Screw tube (A) onto tube (B) in a clockwise direction. Take care not to trap the cable or cross the threads.

Step 3

Stand the product upright. Check the tightness of the joints.

Step 4

Attach the shade of your choice (not supplied). Do not use this product without the shade attached.

When fitting a shade, take care not to loosen the lower lampholder ring.

Please note: A shade with a maximum diameter of 45cm is suitable for use.

Step 5

Fit the recommended bulb as per the details overleaf.

Step 6

Unbundle the cable from the cable tie.

Your floor lamp is now ready to use.

Turn on using the switch on the lampholder (C).
