Symbols glossary

 <p>Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.</p>	 <p>Dedicated cooking function for the double sided plate BBQ. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>	 <p>Circulaire with lower element: The addition of the lower element adds extra heat at the base for food which requires extra cooking.</p>
 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p>ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.</p>
