

## Product information

- Indoor use only
- Dimmable - When used with dimmable bulbs
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish
- Glass parts - Just use a damp cloth. Do not use abrasive materials as these will damage the finish. Take care when handling glass parts to avoid damage or injury

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

# TIMELESS LANTERN LARGE USER GUIDE

Product Code:  
70145008

## Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

## Warnings

This is a Class 1 product and must be earthed. It is recommended that this fitting is installed by a qualified electrician. Install in accordance with the IEE Wiring regulations and the Building Regulations. To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge. If you are in any doubt, please consult a qualified electrician. This light fitting should be connected to a 5 amp fused circuit. If replacing an existing fitting, make a note of the connections. Always use the correct type and wattage bulb. Never exceed the wattage stated. Dispose of used bulbs carefully. This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles). For your safety, always switch off the supply and allow the fitting to cool down before changing the lightbulb, cleaning or adjusting. Caution: this product contains heavy glass parts - handle with care!

## Parts list

Description	Image	Quantity
Light fitting		x 1
Wall plugs		x 2
Screws		x 2

## Product assembly

### Step 1

Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires.

### Step 2

Remove the fixing bracket (A) from the product by loosening the two side screws (B). Ensure there is a solid mounting surface to support the weight of the light fitting. Using the fixing bracket as a template, mark the position of the mounting holes. Drill holes and fit supplied wall plugs (C) (suitable for masonry only). Take care to avoid damaging any concealed wiring and pipes. Fix the bracket to the ceiling using supplied screws (D).

### Step 3

The hanging height of this product can be adjusted. Work out the required height and remove chain links with a pair of pliers. Pull the cable through the cord grip (E) until the desired height is achieved. Ensure the weight of the fitting is supported on the chain and not the cable.

### Step 4

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way. Check that: You have correctly identified the house wires. The connections are tight. No loose strands have been left out of the connection block.

### Step 5

This product has "L" shaped fixing slots to allow easy fixing to the fixing bracket. Locate the "L" slots (F) around the small screws (B) on the fixing bracket (A). Rotate the ceiling cover to attach the product to the bracket. Tighten the screws to secure. Take care not to trap any wiring.

### Step 6

Fit the recommended bulb (G) as per the details overleaf.

### Step 7

Replace fuse or circuit breaker and switch on. Your light is now ready for use.
