

Product information

- Indoor use only
- Non-dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish
- Glass parts - Just use a dry or damp cloth. Do not use abrasive materials as these will damage the finish. Take care when handling glass parts to avoid damage or injury

Aftercare and Troubleshooting

You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

CADOGAN TABLE LAMP USER GUIDE

Product Code:
70650407

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class II product and must NOT be earthed. It is for indoor use only, and not suitable for a bathroom location. Do not plug into the mains until your lamp is fully assembled. It must be used on a stable, flat surface. Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. When manoeuvring the lamp it must be lifted from the bottom section. The lamp must be protected by a 3 Amp fuse in the mains plug. If you are in any doubt, please consult a qualified electrician. For your safety, always switch off the power supply before cleaning or changing the bulbs. Always use correct type and wattage bulb. Never exceed the wattage stated. If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person to avoid a hazard. Ensure cables do not present a trip hazard or strangulation hazard. This product contains glass so care must be taken when fitting or handling to prevent personal injury or damage to the product.

Parts list

Description	Image	Quantity
Light fitting		x 1
Glass panels		x 2
Brackets		x 4
Finials + spare		x 8 x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly and place the lamp on a stable, flat surface.

Step 2

Remove the finials from the brackets.

Step 3

Place one glass panel (A) over the product and line up the top the top and bottom holes with the light fitting frame. Fit the brackets (B) into the holes in the outside of the glass and loosely fit the finials (C & D) to secure in place.

Repeat step 3 to attach the other glass panel.

When both glass panels are fitted, tighten the finials with light pressure to secure in place.

Note: both glass panels are handmade and are hand-fitted to the frame, so minor deviations in hole positions may occur. If you find that a glass panel does not align with the frame, try changing the order of the panels.

Step 4

Fit the recommended bulbs (E) as per the details overleaf.

Step 5

Plug in and switch on.

Your table lamp is now ready for use.
