Warning Never leave the lit candle unattended: an adult must always supervise unprotected fire. Keep out of reach of children and animals when not supervised by an adult. Keep lit candles at least 10 cm apart. Do not light near flammable materials. Avoid air currents that could cause the candle to drip and burn down excessively and irregularly. Do not directly breathe in the candle fumes. Do not handle the candle when lit. Consult and keep the outer band of the box and the wax protection disc, which contains the list of allergens, to check for possible intolerances.
