

John Lewis Stock Number	73021807
Product Name	MA04 2S
Warning It is recommended not to move the diffuser once filled, to prevent liquid leaks. It is advisable to choose the place of use before filling and keep the diffuser stable in this position throughout its use (fig. 4). Note: The reeds have to be immersed for 12/24 hours before they diffuse an appropriate amount of fragrance in a room measuring about 30/40 square metres. The fragrance is diffused for up to 30/45 days. The diffusion duration is affected by environmental conditions such as temperature, humidity, ventilation and room size. Safety warnings: Read and keep the instructions, the outer band of the box and the refill label, which contain information on allergens. The fragrance used in the product is flammable: pay close attention. Do not disperse in the environment. Keep out of reach of children. Do not swallow. If swallowed, consult a doctor immediately
