

Product information

- Indoor use only
- Non-dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

Aftercare and Troubleshooting

You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

RUNE FLOOR LAMP USER GUIDE

Product Code:
12020901

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class II product and must NOT be earthed.

It is for indoor use only, and not suitable for a bathroom location.

Your lamp has been packaged as separate parts to prevent damage during transit. The lamp must be protected by a 3 Amp fuse in the mains plug. Do not plug into the mains until your lamp is fully assembled.

If you are in any doubt, please consult a qualified electrician.

Under no circumstances must this floor lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface.

Please note: This product is very heavy and care must be taken when manoeuvring or assembling. Always lift from the base. Do not lift by the stem.

Always use correct type and wattage bulb. Never exceed the wattage stated.

If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.

Ensure cables do not present a trip hazard or strangulation hazard.

For your safety, always switch off the supply before cleaning or changing the bulb.

Parts list

Description	Image	Quantity
Light fitting (2 sections + base)		x 1
Shade ring (fitted to lampholder)		x 1
Shade		x 1
Base pad		x 1

Product assembly

Step 1

Carefully unpack the carton, making sure all the parts are present before assembly and place on a stable, flat surface.

Please note: This product is very heavy and will be easier to assemble with the help of an assistant.

Step 2

Remove the protective plastic end-caps from the tubes (A).

Step 3

Screw tube (C) onto the lampholder section (B) in a clockwise direction. Take care not to trap the cable or cross the threads.

Step 4

Gently pull any excess cable through the base (D) and then out through the side of the base. Turn the completed assembly anticlockwise approximately 6 times. (Turning the tubes anticlockwise first ensures that the cable will straighten when the tubes are fully assembled).

Step 5

Screw the assembly in a clockwise direction on to the base.

Step 6

Fit the base pad (E) and gently stand the product upright. Check the tightness of the joints.

Step 7

To fit the shade (F), first remove the shade ring (G) from the lampholder. Place the shade over the lampholder and secure in place by refitting the shade ring.

Step 8

Fit the recommended bulb (H) as per the details overleaf.

Step 9

Unbundle the cable from the cable tie. Your floor lamp is now ready to use. Switch on using the floor switch.

Please note: The lampholder has an adjustable joint that moves up and down. This allows the shade to be adjusted to the appropriate angle as needed.
