

Product information

- Indoor use only
- Dimmable - When used with dimmable bulbs
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish
- Glass parts - Remove and wash in warm water or just use a damp cloth. Do not use abrasive materials as these will damage the finish. Take care when handling glass parts to avoid damage or injury

Aftercare and Troubleshooting

You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

LILY LIGHT USER GUIDE

Product Code:
70245001

Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

Warnings

This is a Class 1 product and must be earthed.
It is recommended that this fitting is installed by a qualified electrician.
Install in accordance with the IEE Wiring regulations and the Building Regulations.
To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge.
If you are in any doubt, please consult a qualified electrician.
This light fitting should be connected to a 5 Amp fused circuit.
If replacing an existing fitting, make a note of the connections.
Always use the correct type and wattage bulb. Never exceed the wattage stated.
Dispose of used bulbs carefully.
This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).
Never put anything on the product or hang anything on any part of this product.
This product contains glass so care must be taken when fitting or handling to prevent personal injury or damage to the product.
For your safety, always switch off the supply and allow the fitting to cool down before changing lightbulbs, cleaning or removing the shade.

Parts list			
Description	Image	Quantity	
Light fitting		x 1	
Shade		x 1	
Metal washers (fitted)		x 2	
Rubber washers (fitted)		x 2	
Nut (fitted)		x 1	
Spanner		x 1	
Finial (fitted)		x 1	
Wall plugs		x 2	
Screws		x 2	

Product assembly

Step 1
Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires.
Please note: This product can be installed as a ceiling or wall light.

Step 2
Remove the fixing bracket (A) from the product by undoing the two side screws (B) and retain for reuse. Ensure there is a solid mounting surface to support the weight of the light fitting. Using the fixing bracket as a template, mark the position of the mounting holes. Drill holes and fit supplied wall plugs (C) (suitable for masonry only). Take care to avoid damaging any concealed wiring and pipes. Fix the bracket to the ceiling or wall using supplied screws (D).

Step 3
Fit the recommended bulbs (E) as per the details overleaf.

Step 4
To fit the glass shade (H), first remove the finial (M), Nut (K), one metal washer (J) and one rubber washer (I) from the stem. Make sure the remaining metal (F) and rubber washers (G) are still in place. Fit the shade, refit the rubber and metal washers removed earlier. Refit the nut and secure the shade in place using the supplied spanner (L). Refit the finial and tighten with light pressure. **Please note:** the nut is there for safety and to secure the shade in place. Take care when removing to change the bulbs.

Step 5
Having identified the household wiring from your existing light fitting, connect to the connection block (N) inside the product in the following way. **Check that:**
You have correctly identified the house wires.
The connections are tight.
No loose strands have been left out of the connection block.

Step 6
Reattach the product to the fixing bracket using the two screws removed in step 2 and tighten to secure. Take care not to trap any wiring.

Step 7
Your light is now ready for use.
