Instructions for use	Step 1: Pour 1–2 tablespoons of oil into a saucepan along with 1–2 tablespoons of salt (or salt substitute). Heat over a medium flame until the oil begins to shimmer. Add popcorn kernels. Step 2: Give the pan a good shake and place the lid on. Step 3: Once popping starts, gently shake the saucepan while holding the lid firmly in place. Continue until popping slows slightly. Step 4: Remove from heat when popping slows to several seconds between pops. Carefully remove the lid, keeping the opening away from you to avoid steam. For chocolate toppings: Melt Popcorn Shed chocolate bars in a heatproof bowl over simmering water. Pour over freshly popped popcorn, stir until coated, spread on parchment paper, and allow to cool. Step 5: Enjoy!
