TO OFFER QUALITY PRODUCTS AND OUTSTANDING
SERVICE TO THE PEOPLE WHO MATTER MOST –
YOU, OUR CUSTOMERS.

BECAUSE FOR US, IT'S PERSONAL

WELCOME

Making the most of your bathroom allows you to create an inspiring space that is much more efficient and a pleasure to use.

The right mirrors and cabinets make all the difference. They give focus to a space and are a beautiful design touch. New technology offers many benefits too: from heated pads that stop mirrors steaming up, to innovative LED lighting that creates different moods and warmth.

Over the following pages we showcase our ranges that have been carefully designed to enhance your space and style.

INSPIRATION

Whether you're refreshing your bathroom or completely re-designing it, choosing the right mirrors and cabinets are key. It's worth looking for ideas on Pinterest, in interiors magazines or places you visit. You'll also find lots of inspiration and designs in our shops and at johnlewis.com

MIRRORS

The right mirror can create the illusion of space, enhance your lighting scheme and deliver the look you want for your bathroom.

CABINET

New cabinets will give a designer look and feel to your bathroom, while making the most of innovative technology and storage space.

KEY FEATURES THAT MAKES THE DIFFERENCE

COLOUR TEMPERATURE CHANGING LED ILLUMINATION

LED lighting that gives warm and cool light options means you can set your lighting to your mood, the style of your bathroom or the task in hand.

Warm tones are relaxing, while a more natural, white light is perfect when putting on makeup.

A cool white light is bright and sharp, ideal for waking up and getting ready for the day.

USB AND TWO PIN CHARGING SOCKET

A two pin charging socket will power shavers, trimmers and toothbrushes.

A USB socket is ideal to top up the power in your phone or for charging some electric toothbrushes.

HEATED PAD

By warming the area behind the glass, a heated pad helps condensation evaporate. The mirror doesn't steam-up and you always have a clear view.

OUR PRODUCTS

SENSOR SWITCH

Sensor switches are a brilliant hands-free option.

KEEP-CLEAN MATS

Keep-clean mats are mould-resistant and stay fresh.

MIRRORED SIDES

Mirrored side panels on cabinets create a feeling of extra space.

REMOVABLE SHELVES

Removable shelves give more flexibility, making space for taller products.

MIRRORED DOORS

Doors with mirrors on both sides make the best use of space.

GETTING PROPORTIONS RIGHT

CHOOSING THE RIGHT SIZE

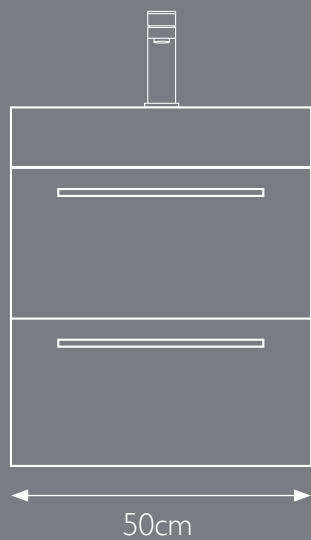

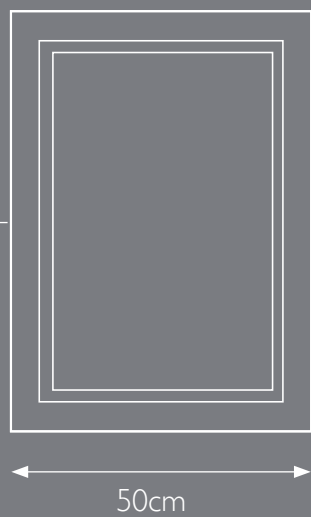

For a well-balanced design aesthetic, make sure your mirror or cabinet is the same width or narrower than your basin unit, but not wider.

Match to the width of your basin unit to create a contemporary feel. Or go narrower for a more boutique look.

THE RIGHT HEIGHT

The optimum height to hang your mirror or cabinet is 165cm from the centre of the mirror to the floor. This will give the optimum facial reflection at different heights.

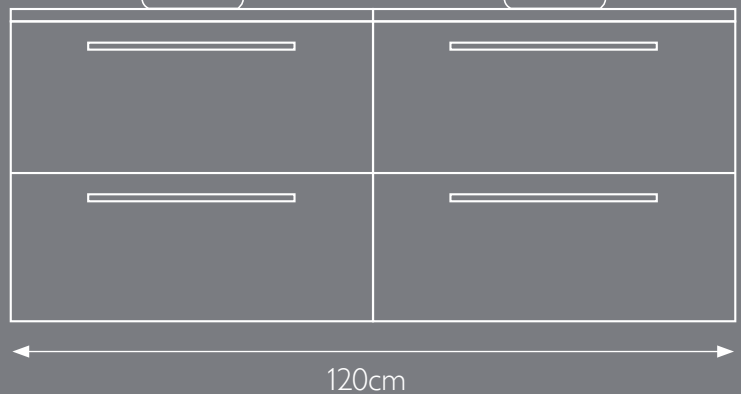

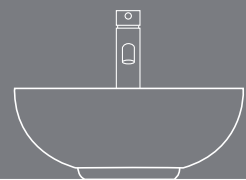

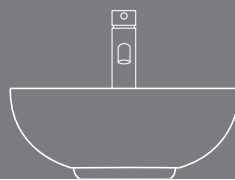

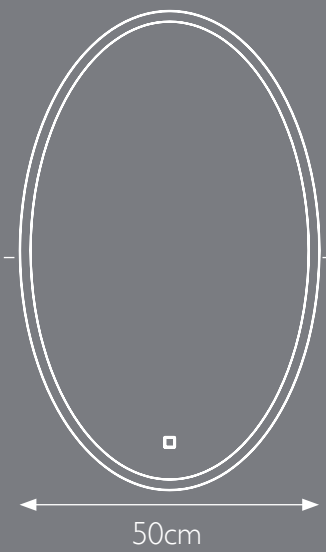

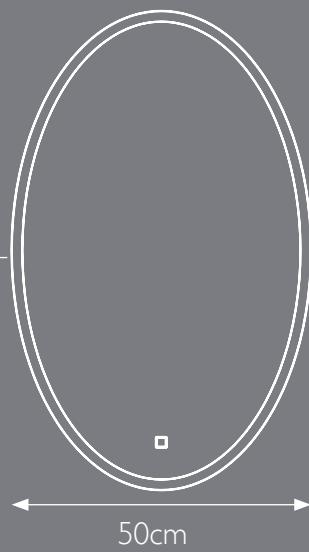

WIDTHS CAN CHANGE THE LOOK
