

## Product information

- Indoor use only
- Non dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

# SAMANTHA WALL LIGHT USER GUIDE

Product Code:  
70243104

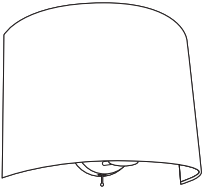

Thank you for purchasing this Samantha Wall Light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

**Warnings!**

**This is a Class 1 product and must be earthed.**

Please read these instructions carefully before commencing any work. It is recommended that this fitting is installed by a qualified electrician. Install in accordance with the IEE Wiring regulations and the Building Regulations. To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge. If you are in any doubt, please consult a qualified electrician. This light fitting should be connected to a 5 amp fused circuit. If replacing an existing fitting, make a note of the connections. This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles). For your safety, always switch off the supply before cleaning or removing the shade.

**Parts List**

Light Fitting		1	Wall plugs		2
			Screws		2
			Wall Bracket		1

**Fixing Instructions**

Make sure you have the following items which are required to install this light fitting:  
Small electrical screwdriver, cross head screwdriver & insulation tape.

**Step 1**

Ensure the house electricity supply is switched off at the supply.

**Step 2**

Attach to the wall using the screws provided. Refer to Fig. 1. Make care to avoid damaging any concealed wiring and pipes.

**Step 3**

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way:

**Check that.....**

You have correctly identified the house wires. The connections are tight. No loose strands have been left out of the connection block.

**Step 4**

When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.

**Step 5**

Attach the wall light to the wall bracket by screwing the screws through the side of the wall light and into the bracket, ensure all wires are away from the edge.

**Step 6**

Fit the bulb observing the correct type and wattage; never exceed the correct type and wattage. See details overleaf.

**Step 7**

Replace fuse or circuit breaker and switch on using the toggle switch on the base of the wall back. Your light is now ready for use.
