Please retain these instructions for future reference.

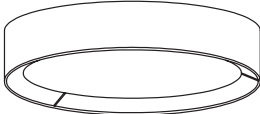

Product Code:  
10510101

Thank you for purchasing this Samantha flush light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This is a Class 1 product and must be earthed.  
Please read these instructions carefully before commencing any work.  
It is recommended that this fitting is installed by a qualified electrician.  
Install in accordance with the IEE Wiring regulations and the Building Regulations.  
To prevent electric shock switch off at mains supply before installing or maintaining this fitting.  
Ensure other persons cannot restore the electrical supply without your knowledge.  
If you are in any doubt, please consult a qualified electrician.  
This light fitting should be connected to a 5 amp fused circuit.  
If replacing an existing fitting, make a note of the connections.  
This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).  
For your safety, always switch off the supply before cleaning or removing the shade.

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

Step 1

Existing ceiling roses must be completely removed before installation of a new product. Before removing the existing fitting or ceiling rose, **carefully note the position of each set of wires.**

Fig. 1

Step 3

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product as shown. When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.

Check that

You have correctly identified the house wires.  
The connections are tight.  
No loose strands have been left out of the connection block.

Fig. 2

Step 4

This product has “L” shaped fixing slots to allow easy fixing to the ceiling strap. See Figure 1. Locate the “L” slots (C) around the small screws (B) on the ceiling strap (A). Rotate the ceiling cover to attach the product to the strap. Tighten the screws to secure. Take care not to trap any wiring.

Step 5

To attach the shade, simply locate it over the hooks that are welded to the outside of the ceiling cover and hang it in place.

Step 6

Replace fuse or circuit breaker and switch on. Your light is now ready for use.
