CONCRETE TABLE LAMP

USER GUIDE

Thank you for purchasing the Concrete Table Lamp. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product. Please keep these instructions for future reference.

Warnings!

This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE Wiring Regulations. It is for indoor use only, and not suitable for a Bathroom location. This is a Class II product and must NOT be earthed. Do not plug into the mains until your lamp is fully assembled. It must be used on a stable, flat surface. Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. When manoeuvring or assembling it must be lifted from the bottom section. The lamp must be protected by a 3 amp fuse in the mains plug. If you are in any doubt, please consult a qualified electrician. For your safety, always switch off the power supply before cleaning or changing the bulb. If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person to avoid a hazard. Ensure cables do not present a trip hazard or strangulation hazard. Always use correct type and wattage bulb. Never exceed the wattage stated.

Parts List

Shade		1
Base		1

Assembly

Refer to assembly drawing below. Carefully unpack the carton, making sure all the parts are present before assembly.

Step 1

Fit the shade and bulb before plugging the lamp into the mains.

Step 2

Fit the recommended bulb as per the details overleaf. Please refer to the diagram for maximum bulb size to fit in the product.

Step 3

Screw the shade onto the lampholder to secure in place.

Step 4

Switch on by touching the metal band on the base. Touch the metal band again to switch the lamp off. Your table lamp is now ready for use.
