

Product  
information

- Indoor use only
- Dimmable - When used with dimmable bulbs
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

Aftercare and  
Troubleshooting

**You've switched on the light, but it's not working:**

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

# THEA 6 LIGHT SPOTLIGHT PLATE USER GUIDE

Product Code:  
10522701

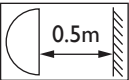

Thank you for purchasing this Thea spot light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This is a Class 1 product and must be earthed.  
For your safety, this product must be installed in accordance with local Building Regulations. If in any doubt, or where required by the law, consult a competent person who is registered with an electrical self-declaration scheme. Further information is available online or from your Local Authority  
To prevent electric shock switch off at mains supply before installing or maintaining this fitting.  
Ensure other persons cannot restore the electrical supply without your knowledge.  
This light fitting should be connected to a 5 amp fused circuit.  
This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).  
Ensure the correct fixings are used for the installation surface.  
For your safety, always switch off the supply before cleaning or adjusting.

The supplied bulbs are 2.8W LED GU10 and are not dimmable.

LED bulbs up to 3W can be used - but ensure that the minimum distance to the illuminated surface is not less than 0.5m (50 cm).

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

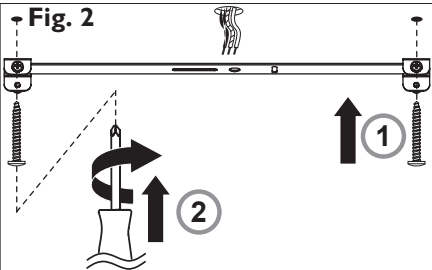

Step 1

Before removing the existing fitting, carefully note the position of each set of wires.

Step 2

See Fig.1. Remove the fixing bracket (A) from the ceiling cover by loosening the side screws (B).

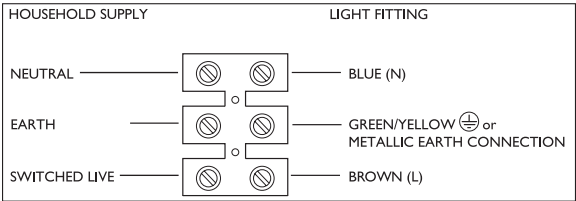

Step 3

See Fig.2. Attach to the ceiling using the screws provided. Ensure there is a joist at the point of fixing to support the weight of the product. Take care to avoid damaging any concealed wiring and pipes.

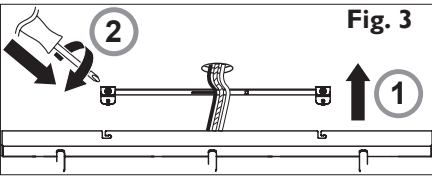

Step 4

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product as shown. When completed, ensure that there are no bare or loose strands of wire exposed.

Check that

You have correctly identified the house wires.  
The connections are tight.  
No loose strands have been left out of the connection block.

Step 6

See Fig.3. Fix the ceiling cup to the bracket. This product has “L” shaped fixing slots to allow easy fixing to the ceiling strap. See Fig.1. Locate the “L” slots (C) around the small screws (B) on the ceiling strap (A). Slide the ceiling cover to attach the product to the strap. Tighten the screws to secure. Take care not to trap any wiring.

Step 8

Fit the recommended bulbs as per the details overleaf. Replace fuse or circuit breaker and switch on. Your light is now ready for use.
