

## Product information

- Indoor use only
- Dimmable - when used with dimmable bulbs
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish
- Glass parts - Use a damp cloth. Do not use abrasive materials as these will damage the finish. Take care when handling glass parts to avoid damage or injury

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

# SELSEY WALL LIGHT USER GUIDE

Product Code:  
70250224

Thank you for purchasing this Selsey Wall Light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

**Warnings!**

**This product is Class I and must be earthed.**

Please read these instructions carefully before commencing any work. It is recommended that this fitting is installed by a qualified electrician.

Install in accordance with the IEE Wiring regulations and the Building Regulations.

To prevent electrocution switch off at mains supply before installing or maintaining this fitting.

Ensure other persons cannot restore the electrical supply without your knowledge.

If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a 5 amp fused circuit.

If replacing an existing fitting, make a note of the connections.

Always use the correct type and wattage bulb. Never exceed the wattage stated.

When changing a bulb or adjusting the heads, always switch off at the mains and allow to cool down. Dispose of used bulbs carefully.

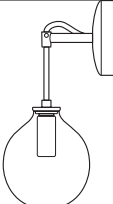

This product is suitable for indoor use only.

This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).

For your safety, always switch off the supply before changing lightbulbs, or cleaning. Always take care when handling lightbulbs to avoid injury in case of breakage.

**NOTE:** the shade of the fitting is not replaceable.

**Parts List**

Light Fitting		1	Screws		2
			Wall Plugs		2

**Installation Instructions**

Carefully unpack the carton, making sure all the parts are present before assembly.

**Step 1**

Remove the fixing strap (A) from the fitting by removing side screws (B). Using the screws provided in the fixing pack, secure the strap to the wall. Take care to avoid damaging any concealed wiring and pipes. See. Fig. 1.

**Fig. 1**

**Step 2**

Attach to the wall using the screws provided. Refer to Fig. 2. Take care to avoid damaging any concealed wiring and pipes.

**Fig. 2**

**Step 3**

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way:

**Check that.....**

You have correctly identified the house wires.

The connections are tight.

No loose strands have been left out of the terminal block.

All exposed areas of the connection block are covered with 2 layers of good quality insulation tape.

**Step 4**

See Fig. 1. Attach the product to the fixing bracket using side screws (B), by locating the screws in the bracket into the holes in the sides of the fitting (C) and tightening the screws to secure. Take care not to trap any wiring.

**Step 5**

Fit the bulb as per the details overleaf.

**Step 6**

Replace fuse or circuit breaker and switch on. Your light is now ready for use.
