

## Product information

- Indoor use only
- Dimmable - When used with dimmable bulbs
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

## Keely 4lt Spot User Guide

Product Code:  
10522422

## Warnings!

**This is a Class 1 product and must be earthed.**

Please read these instructions carefully before commencing any work. It is recommended that this fitting is installed by a qualified electrician.

Install in accordance with the IEE Wiring regulations and the Building Regulations.

To prevent electrocution switch off at mains supply before installing or maintaining this fitting.

Ensure other persons cannot restore the electrical supply without your knowledge.

If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a 5 amp fused circuit.

If replacing an existing fitting, make a note of the connections.

Always use the correct type and wattage bulb. Never exceed the wattage stated.

This product contains hot parts. When changing a bulb or adjusting the heads, always switch off at the mains and allow to cool down. Dispose of used bulbs carefully.

This product is suitable for indoor use only.

This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).

For your safety, always switch off the supply before changing lightbulbs, cleaning or removing shades. Always take care when handling lightbulbs to avoid injury in case of breakage.

This product has been designed with folding bars to allow different configurations and layouts to be easily achieved. To position the bars, fold them out into the desired configuration. There is no need to tighten the bars once in position. They are designed to rotate freely to allow easy operation. When installing and using this product, take care not to allow the bars and heads to collide with each other.

**This product is dimmable when used in conjunction with suitable bulbs.**

**GU10 LED bulbs up to 7W can be used - but ensure that the minimum distance to the illuminated surface is not less than 0.5m (50 cm).**

## Parts List

Light Fitting		1	Screws		2
			Wall plugs		2

## Installation Instructions

Make sure you have the following items which are required to install this light fitting:

- Small electrical screwdriver, cross head screwdriver & insulation tape.
- The installation of this fitting will be much easier with the help of an assistant.

## Step 1

Before removing the existing fitting, **carefully note the position of each set of wires.**

## Step 2

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way:

## Check that.....

You have correctly identified the house wires.  
The connections are tight.  
No loose strands have been left out of the connection block.

## Step 3

When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.

## Step 4

Locate the fixing screws through the white plastic plugs in the ceiling cover and screw directly into the ceiling making sure that there is a joist at the point of fixing. Take care not to trap or damage any wiring. Apply the chrome finish screw caps to the screw heads once attached to the ceiling.

## Step 5

Fit the recommended bulbs as per the details overleaf.

## Step 6

Replace fuse or circuit breaker and switch on. Your light is now ready for use.
