Care and maintenance

How to care for your glass and metal furniture

For glass elements use glass cleaner or soapy water for cleaning, do not use anything abrasive as this may damage the surface of the product. **Note: Glass can scratch in normal use therefore please protect surfaces from scratches and marks by using mats and coasters.**

Protect the metal elements from spillage, sunlight and heat. A slightly damp cloth is the best cleaning agent for the material. Dry and polish with a non abrasive soft cloth.

Do not use any abrasive cleaner or harsh detergent on the metal elements as this can damage the surface. Avoid spilling or dropping crumbs of food with a high fat content on the surface as this can permanently mark the metal.

Safety instructions

Periodically check all fixings to ensure none have come loose and retighten when necessary.

Please take care when handling or moving the furniture as careless handling may cause damage or injury. Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

To prevent damage or injury ensure the trolley wheels are locked when the unit is stationary.

Max loading for this item is 30kgs.

Caution: This metal surface can scratch. Please avoid contact with hard, sharp objects.

Glass furniture warning

Do not place very hot or very cold items glass surface(s) unless adequately thick table mats are used to prevent such items from coming into contact with the glass.

Do not sit or stand upon glass surface(s)

Do not use the glass as a chopping surface. Do not strike the glass with hard or pointed items.

Tempered glass is designed to break into very small fragments for customer safety. On very rare occasions including when not in direct use, glass can break for the following reasons:-Surface damage and scratches (protect the surface with mats during use). Please take extra care to ensure no heavy or sharp objects impact this product. -

Extremes of temperature. Avoid areas where the item can become very hot and cold.

Retain these instructions for future reference.
