Parts list

## Step 4

Remove the fixing bracket (A) from the ceiling cover by removing the side screws (B).

Attach the fixing bracket to the ceiling using the screws (C) provided. Ensure there is a joist at the point of fixing to support the weight of the product. Take care to avoid damaging any concealed wiring and pipes.

## Step 5

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way. Check that: You have correctly identified the house wires. The connections are tight. No loose strands have been left out of the connection block.

## Step 6

Attach the product to the fixing bracket (A), by locating the screws (B) in the bracket into the holes in the ceiling cover and tightening the screws to secure. Take care not to trap any wiring.

Replace fuse or circuit breaker and switch on. Your light is now ready for use.
