### **RECOMMENDED MATTRESS SIZE 1320mm X 700mm x 120mm**

If you leave the child unattended in the cot, always make sure that the dropside is in the highest position.

This cot has been manufactured for use with a mattress which measures 700mm wide by 1320mm long and a maximum thickness of 120mm. The width and length shall be such that the gap between the mattress and the sides and ends does not exceed 30mm. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm with the mattress base in the lower position and 200mm with the mattress in the highest position to minimise the risk of a child climbing or falling out of the cot.

### **WARNING:**

- \* **TO ENSURE THE SAFETY OF YOUR COT , REGULARLY CHECK ALL THE CONNECTING BOLTS AND GLIDE PINS MAKING SURE THEY ARE TIGHT, CARE SHOULD BE TAKEN THAT NO SCREWS ARE LOOSE BECAUSE A CHILD COULD TRAP PARTS OF THE BODY OR CLOTHING (EG. - \* Be aware of the risk of open fire and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot.
- \* Do not use the cot if any part is broken, torn or missing and use only spare parts approved by the manufacturer.
- \* Do not leave anything in the cot or place the cot close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.
- \* Do not use more than one mattress in the cot.  
All assembly fittings should always be tightened properly and that fittings should be checked regularly and retightened as necessary.
- \* Do not place this child's bed near heat sources, windows and other furniture.
