Please retain these instructions for future reference.

Introduction	Thank you for purchasing this Trumpet Wall Light.	Product assembly		
	Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.	1		8-B
Warnings	This is a Class 1 product and must be earthed. It is recommended that this fitting is installed by a qualified electrician. Install in accordance with the IEE Wiring regulations and the Building Regulations. To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge.			
	If you are in any doubt, please consult a qualified electrician. This light fitting should be connected to a 5 amp fused circuit. If replacing an existing fitting, make a note of the connections. Always use the correct type and wattage bulb. Never exceed the wattage stated. When changing a bulb or adjusting the head, always switch off at the mains and allow to cool down. Dispose of used bulbs carefully.	2		
	This product is suitable for indoor use only. This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles). For your safety, always switch off the supply before changing lightbulb, cleaning or removing the shade.	3	HOUSEHOLD SUPPL Y NEUTRAL	LIGHT FITTING

Fixing bracket (A)	5 August 1	1
Shade ring		1

Refer to assembly diagrams. Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires. Remove the fixing bracket (A) from the fitting by removing side screws (B).

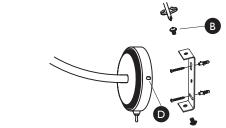

Fix the bracket to the the wall using the supplied wall plugs and screws (C). Take care to avoid damaging any concealed wiring and pipes.

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product as shown on the diagram to the left. Check that:

- You have correctly identified the house wires.
- The connections are tight.
- No loose strands have been left out of the connection block.

When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.

4

5

Attach the product to the fixing bracket (A) using side screws (B) by locating the screws in the bracket into the holes in the sides of the fitting (D) and tightening the screws to secure.

Take care not to trap any wiring.

To attach the glass shade remove shade ring (F) from threaded body (E), place glass shade over threaded body (E) and replace the shade ring (F), tighten with light pressure.

Fit the recommended bulb.

Replace fuse or circuit breaker and switch on. using the toggle switch. Your light is now ready for use.
