

Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires. Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

Product features a full range touch dimmer smart switch on the pole with 5 color temperature settings.

Smart switch instruction:

 — Color Temperature Adjustment

 — On/Off

Specification

Max. power: 24W

O	Washer		1 PC
P	Nut		1 PC
Q	Wrench		1 PC
S	Adapter		1 PC

Recommended bulb

Integrated LED 24 watt
Non-replaceable LED

Product assembly

1. Carefully unpack the carton, making sure all parts are included before assembly. Place lamp parts on a flat surface when assembling.

2. Screw pole (H) clockwise into pole (K) until tight.

3. Screw pole (K) clockwise into pole (L) until tight.

NOTE: You may need to pull any excess cord gently through the poles so that these two parts (K) and (L) fit together.

4. Insert pole (L) into base (N) & washer (M). Tighten nut (P) to washer (O) using wrench (Q).

NOTE: The screw hole of tube (H) should face towards the back of the lamp in the same direction as the cord coming out of the back of the base.

5. Insert tube (B) into shade (A). Tighten the pre-set screw (C) with allen key (D) to secure tube (B) and shade (A) together. For easy access to pre-set screw (C), rotate shade (A) upward.

6. Insert tube (E) into tube (B) and turn part (F) to tighten. To easily assemble the joints together, make sure to slightly lift up the arm to relieve the pressure.

7. Insert tube (G) into tube (E) and turn the second part (F) to tighten.

8. Fold the excess cord coming out of tube (G) and insert into tube (H).

9. Unscrew and remove pre-set screw (I). Insert tube (G) into pole (H) and screw pre-set screw (I) back in and tighten with Allen key (J) to secure tube (G) to pole (H).

10. Insert the adapter (S) into power cord (R).

NOTE: The Arc lamp should face forward with the cord coming out of the back of the base and you may need to pull any excess cord through the pole to the base.

NOTE: Turn on lamp by pressing Smart Touch Switch power button on pole, slide finger along the white line to brighten or dim light. To change color temperature press M at the top of the Smart Touch Switch.
