
Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Replace bulbs from John Lewis or established brand of the same type and compatibility.

Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

When changing a bulb, always switch off the mains and allow the bulb to cool down before handling.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires. Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

Specification

Max. power: 10W
