

Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires. Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

Product features a full range touch dimmer smart switch on the pole with 5 color temperature settings.

Smart switch instruction:

 — Color Temperature Adjustment

 — On/Off

Specification

Product assembly

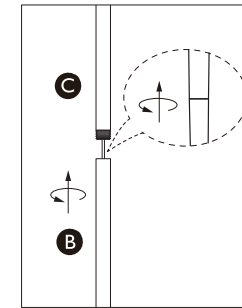

- Carefully unpack the lamp form packaging and please lay the lamp down on the floor to assemble.
- Screw the shade holder (F) into pole (E) until tight.

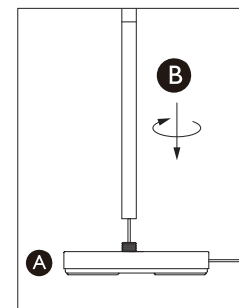

- Fold the excess cord and insert into pole (E).
- Anticlockwise pole (D) for 5 cycles to avoid internal wire twisting.
- Screw pole (E) into pole (D) until tight.

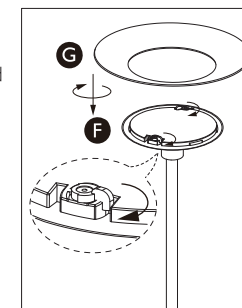

- Screw pole (D) into pole (C) until tight.
- NOTE:** You may need to pull any excess cord gently through the base so that these parts fit.

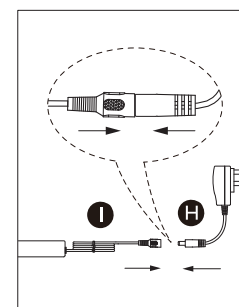

- Screw pole (C) into pole (B) until tight.

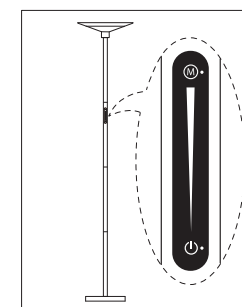

- Pull the excess cord gently from base.
- Anticlockwise the assembled tubes (E), (D), (C) and (B) for 5 cycles to avoid internal wire twisting.
- Screw pole (B) into base (A) until tight.

- Place the glass shade (G) onto shade holder (F). Then, turn each of the 3 plastic pieces connected to shade holder (F) so that they latch onto shade (G) and secure it.

- Connect the adaptor (H) with cord (I).

NOTE: Turn on lamp by pressing Smart Touch Switch power button on pole, slide finger along the white line to brighten or dim light. To change color temperature press M at the top of the Smart Touch Switch.
