

Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Replace bulbs from John Lewis or established brand of the same type and compatibility.

Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

When changing a bulb, always switch off the mains and allow the bulb to cool down before handling.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires. Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

Specification

Product assembly

1. Carefully unpack the carton, making sure all parts are included before assembly. Place lamp parts on a flat surface.

NOTE: The tube shapes are different, tubes (B) and (C) are straight; tubes (D) and (D-1) are tapered at the bottom.

2. Screw tube (B) into tube (A) to until tight.

3. Screw tube (C) clockwise into tube (B) until tight. Repeat for each leg.

4. Screw tube (D-1) clockwise into tubes (C) until tight.

5. Screw tube with cord (D) clockwise into tube (C) until tight.

NOTE: You may need to pull any excess cord gently through the tube (D)

5. Place shade (E) onto socket and then screw on socket ring (F) to secure shade.
