# CONTEMPORARY PICTURE LIGHT USER GUIDE

Product Code:  
70250801

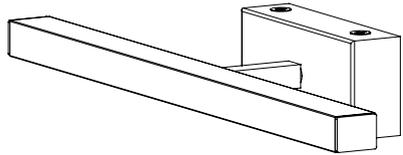

## Getting started

Thank you for purchasing this John Lewis & Partners product. For your safety, and to make sure everything is working properly, please read the instructions carefully before use.

## Warnings

This is a Class II product and must NOT be earthed. It is recommended that this fitting is installed by a qualified electrician. Install in accordance with the IEE Wiring regulations and the Building Regulations. To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge. If you are in any doubt, please consult a qualified electrician. This light fitting should be connected to a 5 amp fused circuit. If replacing an existing fitting, make a note of the connections. This product is suitable for indoor use only. This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles). The product may get hot, therefore for your safety always switch off the light and allow to cool for 10 minutes before adjusting the position.

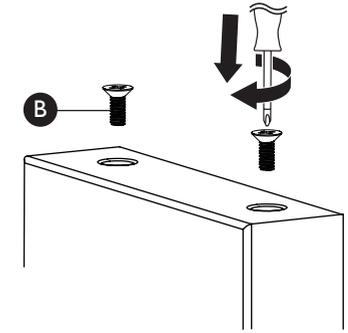

## Parts list

Description	Image	Quantity
Light fitting		x 1
Wall plugs		x 2
Screws		x 2

## Product assembly

### Step 1

Refer to assembly diagrams right. Carefully unpack the carton, making sure all the parts are present before assembly. Before removing the existing fitting, carefully note the position of each set of wires.

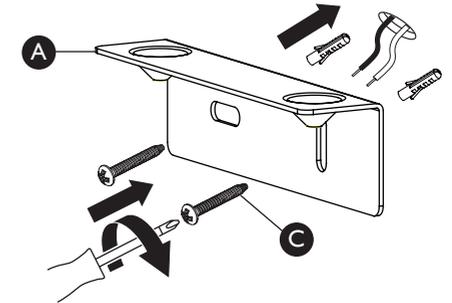

### Step 2

Remove the fixing bracket (A) from the product by removing the top screws (B).

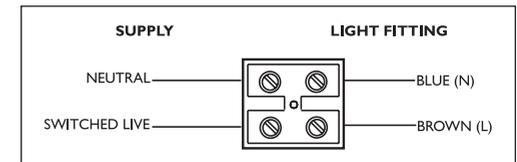

### Step 3

Using the screws provided (C) in the fixing pack, secure the bracket (A) to the wall. Take care to avoid damaging any concealed wiring and pipes.

### Step 4

Connect the product to the household wiring. Check that: You have correctly identified the house wires. The connections are tight. No loose strands have been left out of the connection block. When completed, ensure that there are no bare or loose strands of wire exposed.

### Step 5

Re-attach the product to the fixing bracket and tighten the top screws (B). Take care not to trap any wiring. Adjust the head to the desired position. Replace fuse or circuit breaker and switch on. Your light is now ready for use.
