fitted bedrooms
and home offices

Good to know

John Lewis is well known for great design, reliable quality and real value. You will find all these things in our comprehensive fitted bedroom and home office service.

Our service begins with an experienced designer visiting you at home to creatively plan and design your room for you. Not only will they bring with them a full set of samples to choose from, they will also provide a 3D visual and floor plan of how your room will look.

If you decide to go ahead and purchase, a surveyor will visit your home to double check all the measurements before your furniture is manufactured. Depending on which range you have chosen this typically takes six to eight weeks. A qualified installer will then fit your furniture with the greatest of care and minimal disruption.

All our John Lewis fitted bedrooms and home offices are made in the UK and come with a 10 year guarantee included in the price. We offer affordable and flexible Interest Free Credit (**0% representative APR**) on selected products when you spend £1,000 or more. See page 54 or visit johnlewis.com/interestfreecredit for more information. So as well as a beautiful new room, you can enjoy complete peace of mind.

Buying John Lewis fitted furniture in four easy steps:

1 Create

One of our experienced designers will visit you at home to creatively plan and design your bedroom or home office. They will bring a full set of samples, so you can see all the optional finishes and features.

The designer will listen to your specific requirements, storage needs and answer any questions you might have. After measuring your room and creating a floor plan, they will produce a 3D drawing of how your room will look.

2 Quote

When you've decided what you would like in your room, the designer will prepare a detailed quotation. This will include delivery and installation.

3 Survey

If you decide to go ahead, we'll send a surveyor to your home to double-check the measurements. They will also check other details with you, such as your chosen interior options, finishes and handles.

Your order will then be manufactured. Depending on which range you choose, this will typically take approximately six to eight weeks.

4 Install and enjoy

When your furniture is ready our professional installer will deliver it to your home. Installation typically takes between one and two days. The installers will remove any packaging and waste from your home and leave your new bedroom clean and tidy.

Once all the work has been completed, all that's left is for you to relax and enjoy your new bedroom. And for your peace of mind, all John Lewis fitted furniture comes with a 10 year guarantee.

Conditions of sale

Our conditions of sale have been designed to help ensure the planning and fitting of your new room goes as smoothly as possible.

Every room is different

Each John Lewis bedroom and home office is made to order. When your estimate is produced it is your responsibility to ensure that the information and specification it contains meets your requirements.

Natural materials

Furniture that uses wood components or wood veneers will display natural grain and colour characteristics that may vary from what is featured in showroom displays and photographs. We cannot supply specially matched components.

Building work

If you need sockets or radiators moving or any building work that needs to be carried out as part of your project, this must be complete before we can start your installation. This work is your responsibility.

Timescales

As each room is only manufactured for each customer, we do not begin making your furniture until after the surveyor has visited you and you have checked the order is as you would like. Depending on which range you choose, this will usually take 6-8 weeks. A guideline time will be given to you at the time of purchase.

Preparing for installation

In order to make your installation as simple and easy as possible, the room to be fitted should be clear of your current furniture. Please ensure that the pathway to your room is also clear.

It is inevitable that some disruption will occur whilst we are fitting your new room. However, our installers will keep your room as tidy as possible.

Fitting and delivery

Your room will be delivered and fitted by one of our experienced installers. The furniture will sometimes be delivered direct to your home prior to installation. This applies to selected postcodes and you will be notified in advanced if this is the case.

Payment

We require a 20% non refundable deposit on acceptance of our estimate. The balance will be payable 15 working days prior to installation.

We accept payment by Maestro, Visa, Mastercard or cash. Prices are valid for 28 days from the date shown on your estimate.

If you have any further queries about your service or require a full set of our conditions of sale, please contact your local John Lewis Store.

Interest free credit

Terms and Conditions for Interest Free Credit **0% representative APR subject to status.**

To qualify for the Interest Free Credit you need to spend a minimum of £1,000 (up to a maximum of £25,000). Repayments are monthly and repayment periods are 1 year for purchases from £1,000 to £2,999 or your choice of either 1 year or 2 years for purchases of £3,000 or more.

Interest free credit is only available in store on indoor and outdoor furniture, floor coverings, curtains, poles and blinds with a minimum deposit of 10% required and on fitted bedrooms, bathrooms, kitchens and shutters with a minimum deposit of 20% required. Offer excludes nursery furniture. ID may be required for the loan application and acceptance is subject to status. Colours and designs

Due to the photography and printing process some colours may not be a true representation of the product. Please see sample for actual colour. It may be necessary for us to change product specification without prior notice.

Responsible sourcing

We're committed to bringing you quality products, while reducing our impact on the environment. That means knowing where our materials come from, minimising our packaging and recycling what we can. It's all about finding better ways of doing business, bringing quality to life every day in simple but important ways.

Sustainable timber

We recognise that the production of timber-based products can have an environmental and social impact and that's why we've developed our timber policy. It makes it clear to our suppliers the role we expect them to play in supporting sustainable forestry practices and in curbing the worldwide trade in illegal timber.

We aim to have full traceability on all of our timber, to ensure it's legally compliant and where possible, independently certified as being from a responsibly managed source.

To make sure this happens, we only work with suppliers who share our values, and put sustainable timber sourcing at the heart of their business too.

Packaging

Packaging plays an important role in protecting your bedroom while on its way to you but we're also mindful of creating unnecessary waste. We're committed to minimising the amount of packaging we use whenever we can, and exploring the use of new, more environmentally responsible materials.

Recycling

By law, we're required to enable you to recycle up to 80% of product packaging and to do this we contribute up to £1 million a year towards supporting recycling compliance schemes that invest in local recycling centres across the country.

We also actively support waste reduction and recycling within our business, for our customers and among our suppliers. We aim to divert as much of our operational waste away from landfill as possible and have a target of 98% by the end of 2018. We also look for opportunities to recycle whatever we can and to use waste within our business. For example, our Click and Collect boxes are made from our own recycled cardboard.

Our suppliers

We've been working with like-minded bedroom suppliers for well over a decade. We believe the main reason these relationships are so successful is that these suppliers share the same passion for bringing quality to life as we do.

We expect them to obey the law, to respect the rights, interests and wellbeing of their employees, their communities and the environment, whether in the UK or further afield.

Committed to finding new and better ways to do business, we actively encourage our suppliers to do the same in relation to sustainability and responsible sourcing.

Made in UK

All our fitted bedrooms are made in the UK. We work with the leading UK fitted bedroom manufacturers who use state of the art technology and classic craftsmanship to provide a wide range of quality complete bedrooms.

Some materials used in our workshops may come from overseas, but all are hand crafted by skilled British craftsmen.
