IF YOU HAVE THE SPACE, WHY NOT INCORPORATE A CORNER PANTRY INTO YOUR DESIGN? IT'S PERFECT FOR STORING ALL YOUR EVERYDAY KITCHEN ESSENTIALS

PERFECT PLACES TO PUT THINGS

Organised minimalism is a well-stocked kitchen's new best friend. Our solutions show how you can tidily hide food and appliances away and still keep them easy to access - think corner pull-outs, bifold dressers and even a walk-in pantry.

BIFOLD DRESSERS ARE A GREAT WAY TO HIDE AWAY APLIANCES LIKE COFFEE MACHINES AND TOASTERS TO MINIMISE CLUTTER

TALL PULL-OUT

If you're low on space, tall pull-out units are a super efficient way to keep food and appliances.

UNIQUE LAYOUTS

Choose an unusual run of cabinets as a design and storage feature

OPEN SHELVING

Every space can be put to use – even the end of your units. Side panels can be a great place to store things like cookery books.

CORNER UNIT

Pots and pans can be nicely tucked away in a corner, with these swing-out carousel shelves.

JOHN LEWIS EDITION KITCHEN RANGES

From contemporary handleless styles to traditional timber doors, with over 300 unique door options to find your perfect match. Each kitchen is built to order in the UK and built to last, with guarantees of 20 years on the cabinetry and 15 years on the doors.

To give you an idea how each range compares, the price for the units uses an example layout (see below) of 12 units, including a 3 drawer base unit and end panels, plus an integrated fridge freezer housing and a corner unit.

Of course, your kitchen may require more or fewer elements, but it's a good starting point for your budgeting. You can see a full range of sinks, taps, worktops and appliances on johnlewis.com

CHOOSE YOUR KITCHEN

Introducing our three curated collections
Once you've gathered together all your inspiration and ideas, it's time to start thinking about the style of your kitchen. We'll guide you through, helping you choose whether you'd like to go traditional or contemporary, which kind of materials you'd like, and what will suit your budget.

PICK A COLOUR YOU LOVE

Choosing the colour of your new kitchen is perhaps the most emotional and subjective part of the whole journey. You may have an exact shade in mind – perhaps one that fits in with the rest of your home, or simply your favourite colour – but if not, then we have 22 paint colour options to choose from.

Neutrals give a grounding, calm feel and can work with any colour scheme. Greys can be a beautiful backdrop to pops of colour and busy lives. Greens work wonderfully if your kitchen connects to outside space, while relaxing blues make a tranquil space, and earthy tones give a warm farmhouse-style welcome.
