

JOHN LEWIS

SERVICE TERMS & CONDITIONS

Sofa Bed Assembly

What we will do:

- Perform a health and safety risk assessment to ensure that it is safe for John Lewis Partners – or anyone working on our behalf – to work on the premises and perform the requested service.
- Assess the chosen location – and the route to reach it – to ensure it is suitable for the product and for our Partners/installers to safely gain access. If the location is unsuitable we will support in identifying a new, suitable location.
- If your new sofa bed is electric, we will complete some electrical tests to confirm the circuits are safe for the product that is to be connected. If this fails we will be unable to plug in your new sofa bed.
- Build your new sofa bed in the room you intend it to be situated.
- Hand over the instruction booklet and any spare pieces for the ongoing maintenance of the product.
- We'll take away all packaging for recycling.

What you need to do:

- Choose an area for your new product to be situated.
- Make sure the route to and within the chosen location is clear, with room for both our Partners/installers and the product to safely gain access, and that there's enough space for your new product to be assembled and positioned in your chosen location. You can find the product dimensions on the product page.
- Ensure the room that the sofa bed will be placed in is clear prior to our crew's arrival, as we cannot dismantle or move existing items in that room.
- Be aware that you may need to carry out maintenance such as tightening.

What we won't do:

- This service does not include the removal of old products.
