

Corian® in your kitchen

Corian.

ENDLESS EVOLUTION

The versatility of Corian® makes it easy to follow your design vision. You can play with the wide range of colours, opt for a pure, linear style or imagine rounded shapes.

For over 200 years DuPont has consistently pushed the boundaries of industry, inventing new materials and technologies that have changed our lives for the better.

DuPont™ Corian® high-tech solid surface is a beautiful example of this. Created as a higher performance alternative to conventional surfacing materials, over the years it has become an icon in the world of interior design and architecture. In the kitchen, it has brought about a revolution in design and performance.

DuPont™ Corian® embodies a spirit of endless evolution, built on world-class expertise in science, technology and marketing, and two centuries of successful innovation.

DuPont™ Corian® offers a unique combination of material performance, design versatility and service efficiency. More than 45 years of continuous evolution and success have made DuPont™ Corian® a preferred solution for the world's most beautiful kitchens.

Design

No matter how spacious or compact your kitchen, Corian® lends an endless elegance and a silky, seductive touch.

Unique

Small details can make all the difference. A shaped edge can give a sense of rhythm to your worktop. A coved upstand will bring both aesthetic and practical benefits: smooth lines and easy cleaning.

Write your wish list and Corian® will fulfil it.

Bespoke

To create your dream kitchen you can choose the shape and colour of your sink, and select the exact location of the drainer grooves and hob bars. You can even extend the same luxurious aesthetic to a breakfast bar, a table or a hood.

Timeless

Corian® is designed to last. Even years after installation, a simple re-sanding will restore the material's original finish and beauty.

Colours

Corian® is available in a wide range of modern, elegant colours. From the purest solid white to naturally veined effects to intensely dark aesthetics from the DeepColour® collection, DuPont offers a special palette of colours that have been specifically tested for intensive kitchen worktop usage.

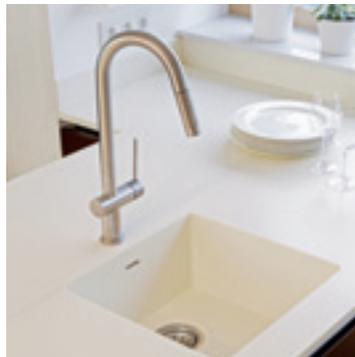

MyRoom Designer

With a new kitchen representing a major investment, you may want to see different options before making your final choice. This is now possible with our useful MyRoom Designer online tool. Just upload a picture of your kitchen or your desired future installation and try out different hues of Corian® to find the colour choice that fulfils your design vision.

Kitchen sinks

When you make Corian® sinks an integral part of your kitchen design, you get a sensational look and outstanding practicality. Durable and non-porous, Corian® sinks are as easy to maintain as they are pleasing to the eye. You can choose from an extensive range of sink styles - each showcasing the materials' extraordinary design flexibility - and install them either as singles or in combination to meet the aesthetic and functional needs of your kitchen.

In our catalogues, you may select one of our full Corian® sinks with fashionable square or classic rounded angles.

These are available in a large or smaller shape, in a choice of five colours (Designer White, Glacier White, Cameo White, Bone or Vanilla).

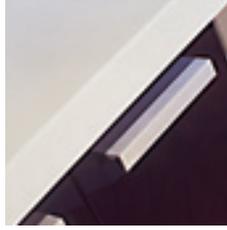

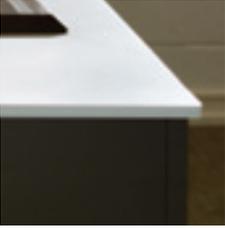

Or you may choose a Corian® sink with a stainless steel base - available in the entire range of Corian® colours - to match your worktop, creating a uniform look and an endless flow of colour.

These enhance the beauty of Corian® and are designed to resist very high temperatures, for example with a boiling water tap.

The Corian® sink will be fitted seamlessly into your worktop in Corian®, forming a single unit and a beautifully smooth finish - with no place for dirt to hide. It will bring the final touch of elegance to your kitchen design.

Edge styles

Since Corian® can be easily shaped and carved, there are a wide variety of stylish edge details available. These range from simple straight edges to bevel, receding or extra deep effects, as shown on below images.

Other options

To complete your worktop in Corian® and create a truly bespoke look, you can add custom accents such as covered upstands, stainless steel hob bars or drainer grooves.

Coved upstand:
seamless, hygienic and practical

Square upstand

Functional hob bars

Elegant drainer grooves

Use and Care

DuPont™ Corian® is a non-porous, stain resistant, homogeneous, durable and renewable material. It is by nature easy to clean, easy to care for and easy to live with. For everyday cleaning, just use a damp microfibre cloth with a standard household kitchen spray. Further information can be found in the Use & Care Kit left by your Corian® installer.

Renewable

Most damage, including severe impact, heat or chemical damage, can usually be repaired on site to restore the integrity of the original smooth, hygienic solid surface.

Website

Learn all about Corian® at www.corian.co.uk/residential. You will find online documentation, videos, interviews and much more to help you create your perfect solution in DuPont™ Corian®.

DuPont™ Corian® has received important independent certifications for its environmental performance, such as GreenGuard®, NAHB North American Builders Association, U.S. Green Building Council's LEED® Green Building Rating System. Its hygienic performance has also been certified by prestigious independent institutions, like NSF International, The Royal Institute of Public Health and LGA QualiTest. The environmental management systems of all the plants of DuPont that produce Corian® have been certified according to ISO 14001. Moreover, all the plants of DuPont that manufacture Corian® have reduced to zero their impact on landfills by reducing, reusing and recycling manufacturing by products and waste.

The Corian® Quality Network

Developed by DuPont, the Corian® Quality Network aims to ensure that customers are highly satisfied with their DuPont™ Corian® installations. Every member of the DuPont™ Corian® Quality Network is committed to making sure that customers receive the highest quality product and the best possible service.

The Warranty Program

DuPont offers two levels of warranty protection for Corian®: product level and installation level. The product warranty is standard for all DuPont™ Corian® products and ensures that they will be free of manufacturing defects for a period of 10 years after purchase. A higher level of coverage, the 10-year Limited Installed Warranty is only available when fabrication and installation are carried out by a Corian® Industrial Partner and member of the Corian® Quality Network. This Limited Installed Warranty expands the product warranty and also ensures that the fabrication and installation of the finished Corian® product will be free from defects.

e-Register your worktop

A simple click can put your mind at ease. Once your installation is complete, register your kitchen worktop at www.corian.co.uk using the e-Warranty Code provided by your Corian® installer. This new online registration service makes it easier and quicker to obtain assistance from our Warranty Centre.

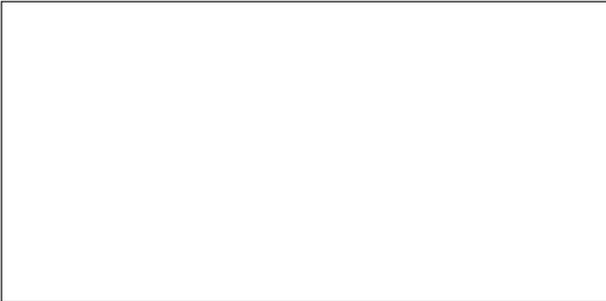

Whenever you see this logo, you can count on our quality guarantee.

You can rely on the expertise of the DuPont™ Corian® Quality Network. Our partners will follow your project through from initial consultation to the fabrication and installation of your kitchen, in accordance with Corian® standards.
